

Taste of Evanston Partners

The **Evanston Lighthouse Rotary Club** is responding to the COVID-19 crisis in several ways. In addition to donating to the Evanston Community Rapid Response Fund, we are promoting ordering from our Taste of Evanston partners. These generous businesses donated to our fundraiser event last year to help us raise money to address housing insecurity in Evanston, and now they need everyone's help to stay open. These partners are open now; others are waiting to return to business as soon as possible. If you can, please order from these great community partners. We are highlighting them because of their willingness to help us address housing insecurity, an important issue, and now more than ever. You will see that some are also running GoFundMe efforts to help their employees. Please be as generous as you can in these difficult times. Check back often to our website - **evlrc.org** - for updates, as there may be many changes in the next weeks.
